d.

| 5. What should be the first tag in any HTML document?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| a. <head></head>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| b. <title>&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. &lt;html&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. &lt;document&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;6. Which tag allows you to add a row in a table?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a.  and&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. &lt;cr&gt; and &lt;/cr&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c.  and&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d.  and&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;7. How can you make a bulleted list?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a. &lt;list&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. &lt;nl&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. &lt;ul&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. &lt;ol&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;8. How can you make a numbered list?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a. &lt;dl&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. &lt;ol&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. &lt;list&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. &lt;ul&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;9. How can you make an e-mail link?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a. &lt;a href="xxx@yyy"&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. &lt;mail href="xxx@yyy"&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. &lt;mail&gt;xxx@yyy&lt;/mail&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. &lt;a href="mailto:xxx@yyy"&gt;&lt;/td&gt;&lt;/tr&gt;&lt;/tbody&gt;&lt;/table&gt;</title> |

| 10. What is the correct HTML for making a hyperlink?           |
|----------------------------------------------------------------|
| a. <a href="http://mcqsets.com">ICT Trends Quiz</a>            |
| b. <a name="http://mcqsets.com">ICT Trends Quiz</a>            |
| c. <http: a="" mcqsets.com<=""></http:>                        |
| d. url="http://mcqsets.com">ICT Trends Quiz                    |
| 11. Choose the correct HTML tag to make a text italic          |
| a. <ii>&gt;</ii>                                               |
| b. <italics></italics>                                         |
| c. <italic></italic>                                           |
| d. <i></i>                                                     |
| 12. Choose the correct HTML tag to make a text bold?           |
| a. <b></b>                                                     |
| b. <bold></bold>                                               |
| c. <bb></bb>                                                   |
| d. <bld></bld>                                                 |
| 13. What is the correct HTML for adding a background color?    |
| a. <body color="yellow"></body>                                |
| b. <body bgcolor="yellow"></body>                              |
| c. <background>yellow</background>                             |
| d. <body background="yellow"></body>                           |
| 14. Choose the correct HTML tag for the smallest size heading? |
| a. <heading></heading>                                         |
| b. <h6></h6>                                                   |
| c. <h1></h1>                                                   |
| d. <head></head>                                               |
|                                                                |

| 15. What is the correct HTML tag for inserting a line break?      |
|-------------------------------------------------------------------|
| a.                                                                |
| b. <lb></lb>                                                      |
| c. <break></break>                                                |
| d. <newline></newline>                                            |
| 16. What does vlink attribute mean?                               |
| a. visited link                                                   |
| b. virtual link                                                   |
| c. very good link                                                 |
| d. active link                                                    |
| 17. Which attribute is used to name an element uniquely?          |
| a. class                                                          |
| b. id                                                             |
| c. dot                                                            |
| d. all of above                                                   |
| 18. Which tag creates a check box for a form in HTML?             |
| a. <checkbox></checkbox>                                          |
| b. <input type="checkbox"/>                                       |
| c. <input=checkbox></input=checkbox>                              |
| d. <input checkbox=""/>                                           |
| 19. To create a combo box (drop down box) which tag will you use? |
| a. <select></select>                                              |
| b. <list></list>                                                  |
| c. <input type="dropdown"/>                                       |
| d. all of above                                                   |

| 20. Which of the following is not a pair tag?                                 |
|-------------------------------------------------------------------------------|
| a.                                                                            |
| b. < u >                                                                      |
| c. <i></i>                                                                    |
| d. <img/>                                                                     |
| 21. To create HTML document you require a                                     |
| a. web page editing software                                                  |
| b. High powered computer                                                      |
| c. Just a notepad can be used                                                 |
| d. None of above                                                              |
| 22. The special formatting codes in HTML document used to present content are |
| a. tags                                                                       |
| b. attributes                                                                 |
| c. values                                                                     |
| d. None of above                                                              |
| 23. HTML documents are saved in                                               |
| a. Special binary format                                                      |
| b. Machine language codes                                                     |
| c. ASCII text                                                                 |
| d. None of above                                                              |
| 24. Some tags enclose the text. Those tags are known as                       |
| a. Couple tags                                                                |
| b. Single tags                                                                |
| c. Double tags                                                                |
| d. Pair tags                                                                  |

| 25. The character tells browsers to stop tagging the text |
|-----------------------------------------------------------|
| a. ?                                                      |
| b. /                                                      |
| c. >                                                      |
| d. %                                                      |
| 26. In HTML document the tags                             |
| a. Should be written in upper case                        |
| b. should be written in lower case                        |
| c. should be written in proper case                       |
| d. can be written in both uppercase or lowercase          |
| 27. Marquee is a tag in HTML to                           |
| a. mark the list of items to maintain inqueue             |
| b. Mark the text so that it is hidden in browser          |
| c. Display text with scrolling effect                     |
| d. None of above                                          |
| 28. There are different of heading tags in HTML           |
| a. 4                                                      |
| b. 5                                                      |
| c. 6                                                      |
| d. 7                                                      |
| 29. To create a blank line in your web page               |
| a. press Enter two times                                  |
| b. press Shift + Enter                                    |
| c. insert<br>tag                                          |
| d. insert <bline></bline>                                 |

| 30. Which of the following is not a style tag?                  |
|-----------------------------------------------------------------|
| a. <b></b>                                                      |
| b. <tt></tt>                                                    |
| c. <i></i>                                                      |
| d. All of above are style tags                                  |
| 31. The way the browser displays the object can be modified by  |
| a. attributes                                                   |
| b. parameters                                                   |
| c. modifiers                                                    |
| d. None of above                                                |
| 32. Which of the following HTML code is valid?                  |
| a. <font colour="red"></font>                                   |
| b. <font color="red"></font>                                    |
| c. <red><font></font></red>                                     |
| d. All of above are style tags                                  |
| 33. Which of the following is an attribute related to font tag? |
| a. size                                                         |
| b. face                                                         |
| c. color                                                        |
| d. All of above are style tags                                  |
| 34. HTML supports                                               |
| a. ordered lists                                                |
| b. unordered lists                                              |
| c. both type of lists                                           |
| d. does not support those types                                 |

| 35. What tag is used to list individual items of an ordered list?                                |
|--------------------------------------------------------------------------------------------------|
| a. LI                                                                                            |
| b. OL                                                                                            |
| c. UL                                                                                            |
| d. None of above                                                                                 |
| 36. When should you use path along with file name of picture in IMG tag?                         |
| a. path is optional and not necessary                                                            |
| b. when the location of image file and html file are different                                   |
| c. when image file and html file both are on same location                                       |
| d. path is always necessary when inserting image                                                 |
| 37. Which of the following is not a valid alignment attribute?                                   |
| a. Left                                                                                          |
| b. Right                                                                                         |
| с. Тор                                                                                           |
| d. All of above                                                                                  |
| 38. Which attribute is used with img tag to display the text if image could not load in browser? |
| a. description                                                                                   |
| b. name                                                                                          |
| c. alt                                                                                           |
| d. id                                                                                            |
| 39. Which attribute can be used with BODY tag to set background color green?                     |
| a. background="green"                                                                            |
| b. bgcolor="green"                                                                               |
| c. vlink="green"                                                                                 |
| d. None of above                                                                                 |
|                                                                                                  |

| 40. Which attribute you'll use with TD tag to merge two cells horizontally?                                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| a. merge=colspan2                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| a. <head></head>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| b. <title>&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. &lt;html&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. &lt;document&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;46. Which tag allows you to add a row in a table?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a.  and&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. &lt;cr&gt; and &lt;/cr&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c.  and&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d.  and&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;47. How can you make a bulleted list?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a. &lt;list&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. &lt;nl&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. &lt;ul&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. &lt;ol&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;48. How can you make a numbered list?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a. &lt;dl&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. &lt;ol&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. &lt;list&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. &lt;ul&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;49. How can you make an e-mail link?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a. &lt;a href="xxx@yyy"&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. &lt;mail href="xxx@yyy"&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. &lt;mail&gt;xxx@yyy&lt;/mail&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. &lt;a href="mailto:xxx@yyy"&gt;&lt;/td&gt;&lt;/tr&gt;&lt;/tbody&gt;&lt;/table&gt;</title> |

| 50. What is the correct HTML for making a hyperlink?           |
|----------------------------------------------------------------|
| a. <a href="http://mcqsets.com">MCQ Sets Quiz</a>              |
| b. <a name="http://mcqsets.com">MCQ Sets Quiz</a>              |
| c. <http: a="" mcqsets.com<=""></http:>                        |
| d. url="http://mcqsets.com">MCQ Sets Quiz                      |
| 51. Choose the correct HTML tag to make a text italic          |
| a. <ii>&gt;</ii>                                               |
| b. <italics></italics>                                         |
| c. <italic></italic>                                           |
| d. <i></i>                                                     |
| 52. Choose the correct HTML tag to make a text bold?           |
| a. <b></b>                                                     |
| b. <bold></bold>                                               |
| c. <bb></bb>                                                   |
| d. <bld></bld>                                                 |
| 53. What is the correct HTML for adding a background color?    |
| a. <body color="yellow"></body>                                |
| b. <body bgcolor="yellow"></body>                              |
| c. <background>yellow</background>                             |
| d. <body background="yellow"></body>                           |
| 54. Choose the correct HTML tag for the smallest size heading? |
| a. <heading></heading>                                         |
| b. <h6></h6>                                                   |
| c. <h1></h1>                                                   |
| d. <head></head>                                               |
|                                                                |

| 55. What is the correct HTML tag for inserting a line break?      |
|-------------------------------------------------------------------|
| a.                                                                |
| b. <lb></lb>                                                      |
| c. <break></break>                                                |
| d. <newline></newline>                                            |
| 56. What does vlink attribute mean?                               |
| a. visited link                                                   |
| b. virtual link                                                   |
| c. very good link                                                 |
| d. active link                                                    |
| 57. Which attribute is used to name an element uniquely?          |
| a. class                                                          |
| b. id                                                             |
| c. dot                                                            |
| d. all of above                                                   |
| 58. Which tag creates a check box for a form in HTML?             |
| a. <checkbox></checkbox>                                          |
| b. <input type="checkbox"/>                                       |
| c. <input=checkbox></input=checkbox>                              |
| d. <input checkbox=""/>                                           |
| 59. To create a combo box (drop down box) which tag will you use? |
| a. <select></select>                                              |
| b. <list></list>                                                  |
| c. <input type="dropdown"/>                                       |
| d. all of above                                                   |

| b. < u >                                             |  |  |  |  |  |  |
|------------------------------------------------------|--|--|--|--|--|--|
| c. <i></i>                                           |  |  |  |  |  |  |
| d. <img/>                                            |  |  |  |  |  |  |
| 61. What is the full form of HTML?                   |  |  |  |  |  |  |
| a. Hyper text markup language                        |  |  |  |  |  |  |
| b. Hyphenation text markup language                  |  |  |  |  |  |  |
| c. Hyphenation test marking language                 |  |  |  |  |  |  |
| d. Hyper text marking language                       |  |  |  |  |  |  |
| 62. What is the full form of HTTP?                   |  |  |  |  |  |  |
| a. Hyper text transfer protocol                      |  |  |  |  |  |  |
| b. Hyper text transfer package                       |  |  |  |  |  |  |
| c. Hyphenation text test program                     |  |  |  |  |  |  |
| d. none of the above                                 |  |  |  |  |  |  |
| 63. What is a search engine?                         |  |  |  |  |  |  |
| a. a program that searches engines                   |  |  |  |  |  |  |
| b. a web site that searches anything                 |  |  |  |  |  |  |
| c. a hardware component                              |  |  |  |  |  |  |
| d. a machinery engine that search data               |  |  |  |  |  |  |
| 64. What is the full form of TCP/IP?                 |  |  |  |  |  |  |
| a. transmission control protocol / internet protocol |  |  |  |  |  |  |
| b. telephone call protocol / international protocol  |  |  |  |  |  |  |
| c. transport control protocol / internet protocol    |  |  |  |  |  |  |
| d. none of the above                                 |  |  |  |  |  |  |

60. Which of the following is not a pair tag?

a.

Which tag is used to create body text in HTML?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| a. <head></head>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| b. <text></text>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| c. <title>&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. &lt;BODY&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;67. "Yahoo", "Infoseek" and "Lycos" are?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a. Search Engines&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. Browsers&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. News groups&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. None of the above&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;68. What does the .com domain represents?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a. Education domain&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. Commercial domain&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. Network&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. None of the above&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;69. In Satellite based communication, VSAT stands for?&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;a. Very Small Aperture Terminal&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;b. Varying Size Aperture Terminal&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;c. Very Small Analog Terminal&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;d. None of the above&lt;/td&gt;&lt;/tr&gt;&lt;/tbody&gt;&lt;/table&gt;</title> |

| 70. Outlook Express is a                               |
|--------------------------------------------------------|
| a. E-Mail Client                                       |
| b. Browser                                             |
| c. Search Engine                                       |
| d. None of the above                                   |
| 71. <title> </title> tag must be within                |
| a. Title                                               |
| b. Form                                                |
| c. Header                                              |
| d. Body                                                |
| 72. Text within <em> </em> tag is displayed as         |
| a. bold                                                |
| b. italic                                              |
| c. list                                                |
| d. indented                                            |
| 73. Text within <strong> </strong> tag is displayed as |
| a. bold                                                |
| b. italic                                              |
| c. list                                                |
| d. indented                                            |
| 74. <ul> </ul> tag is used to                          |
| a. display the numbered list                           |
| b. underline the text                                  |
| c. display the bulleted list                           |
| d. bold the text                                       |

| 75. Which tag is used to display the numbered list?   |  |
|-------------------------------------------------------|--|
| a. <ol></ol>                                          |  |
| b. <dl></dl>                                          |  |
| c. <ul></ul>                                          |  |
| d. <li></li>                                          |  |
| 76. Which tag is used to display the large font size? |  |
| a. <large></large>                                    |  |
| b. <big></big>                                        |  |
| c. < SIZE >                                           |  |
| d. <font></font>                                      |  |
| 77. <script> </script> tag can be placed within       |  |
| a. Header                                             |  |
| b. Body                                               |  |
| c. both A and B                                       |  |
| d. none of the above                                  |  |
| 78. using <p> tag will</p>                            |  |
| a. start a new paragraph                              |  |
| b. break the line                                     |  |
| c. end the current paragraph                          |  |
| d. none of the above                                  |  |
| 79. <td> </td> tag is used for                        |  |
| a. Table heading                                      |  |
| b. Table Records                                      |  |
| c. Table row                                          |  |
| d. none of the above                                  |  |

| 81. With regards to e-mail addresses:                       |
|-------------------------------------------------------------|
| a. hey must always contain an @ symbol                      |
| b. hey can never contain spaces                             |
| c. they are case-insensitive                                |
| d. all of the above                                         |
| 82. A homepage is                                           |
| a. an index of encyclopedia articles                        |
| b. where all Internet data is stored                        |
| c. required for access to the Internet                      |
| d. the first page of a website                              |
| 83. Which of the following is used to explore the Internet? |
| a. Browser                                                  |
| b. Spreadsheet                                              |
| c. Clipboard                                                |
| d. Draw                                                     |
| 84. What is Internet Explorer?                              |
| a. An Icon                                                  |
| b. A File Manager                                           |
| c. A Browser                                                |
| d. The Internet                                             |
| 85. What do I need to get onto the Internet?                |
| a. Computer                                                 |
| b. Modem                                                    |
| c. Browser                                                  |
| d. All of the above                                         |

| 86. What is an ISP?                                                      |
|--------------------------------------------------------------------------|
| a. internet System Protocol                                              |
| b. internal System Program                                               |
| c. Internet Service Provider                                             |
| d. None of the above                                                     |
| 88. Which is not a domain name extension?                                |
| a. mil                                                                   |
| b. org                                                                   |
| cint                                                                     |
| dcom                                                                     |
| 89. What is a FTP program used for?                                      |
| a. Transfer files to and from an Internet Server                         |
| b. Designing a website                                                   |
| c. Connecting to the internet                                            |
| d. None of the above                                                     |
| 90. Which of the following are commonly found on web pages?              |
| a. nternet                                                               |
| b. hyperlinks                                                            |
| c. intranet                                                              |
| d. all of the above                                                      |
| 91. What is the correct syntax in HTML for creating a link on a webpage? |
| a. <link src="mcqsets.html"/>                                            |
| b. <body link="mcqsets.html"></body>                                     |
| c. <a src="mcqsets.html"></a>                                            |
| d. < A HREF = "mcqsets.html">                                            |

| 92. Which of the following is an attribute of <table> tag?</table>      |
|-------------------------------------------------------------------------|
| a. SRC                                                                  |
| b. LINK                                                                 |
| c. CELLPADDING                                                          |
| d. BOLD                                                                 |
| 93. Choose the correct HTML tag to make the text bold?                  |
| a. <b></b>                                                              |
| b. <bold></bold>                                                        |
| c. <strong></strong>                                                    |
| d. Both A) and C)                                                       |
| 94. Which HTML tag would be used to display power in expression (A+B)2? |
| a. <sup></sup>                                                          |
| b. <sub></sub>                                                          |
| c. <b></b>                                                              |
| d. <p></p>                                                              |
| 95. Choose the correct HTML code to create an email link?               |
| a. <a href="admin@mcqsets.com"></a>                                     |
| b. <a href="admin:suresh@mcqsets.com"></a>                              |
| c. <mail>admin@mcqsets.com </mail>                                      |
| d. MAILHREF = "admin@mcqsets.com">                                      |
| 96. Choose the correct HTML tag for the largest heading?                |
| a. <h1></h1>                                                            |
| b. <h6></h6>                                                            |
| c. <h10></h10>                                                          |
| d. <head></head>                                                        |
